EDUCATION

University of California, Berkeley, *Bachelor of Science in Computer Science and Statistics*, Aug 2023 - May 2027 - Present
GPA: 3.9/4.0

Relevant Coursework: Data Structures, Algorithms, AI & ML, Computer Architecture, Computer Graphics, Network Theory (Graduate), Object Oriented Programming, Structure and Interpretations of Computer Programs, Principles and Techniques in Data Science, Bayesian Statistics (Graduate), Discrete Math and Probability Theory, Random Processes, Calculus

TECHNICAL KNOWLEDGE

Programming Languages: Java, Python, JavaScript, HTML/CSS, Swift, MySQL, R, Scheme, Go

Frameworks & Tools: Xcode, React, Git, LaTeX, Jupyter, Eclipse, IntelliJ, VSCode

EXPERIENCE

SciFin Inc.

Software Engineering Intern

San Jose, CA

May 2025 - Aug 2025

- Led the intern team of 4 in building a Go-based system (Genesis) to generate large-scale synthetic Salesforce CRM data (Accounts, Contacts, Opportunities, etc.) that reduced pipeline running time by 30% down to 8 minutes
- Built Meltano ELT pipelines to ingress generated data into MongoDB and Salesforce, handling schema mappings and validations
- Set up k8s framework and integrated the project into the company's k8s cluster, allowing project to be run alongside the existing architecture
- Gave a technical demo of Genesis project to VCs at Foundation Capital

Computer Science Mentors

CS70 Mentor

Berkeley, CA

Sep 2024 - Dec 2024

- Led tutoring sections on Discrete Math and Probability Theory for 7 students twice a week
- Worked with a group of fellow mentors to organize monthly social events across CS courses

Haas School of Business, UC Berkeley

Teaching Assistant

Berkeley, CA

Sep 2024 - Feb 2025

- Taught and led discussions about Finance & Entrepreneurship for 60+ students twice a week
- Coordinated and assisted with team building and leadership activities
- Worked alongside Program Manager to design the curriculum for 100+ incoming Fall 2025 batch of students

PROJECTS

Paulownia Advisory

Chief Technology Officer

Remote, US

Sep 2023 - Oct 2024

- Led the use of financial modeling tools to streamline firm's investment process (\$60k+ assets under management)
- Developed and built the firm's digital platform: <https://www.paulowniaadvisory.com> using WIX Sitebuilder

CalHacks, UC Berkeley Hackathon

Berkeley, CA

July 2024 - Oct 2024

- Developed a mobile application in Swift & JS which tracks user steps & calories burnt with a generative AI chatbot trained on live data (Gemini) offering personalized insights to users (<https://github.com/AltayHodo/Zvezda-Cardio>)
- Built a mobile/web application in Java where user can control a character and interact in a randomly generated world, with integrated features like minigames (<https://gitfront.io/r/CSAyush/aP75xdeAkJH/sp24-proj3-g121/>)

INTERESTS & LANGUAGES

Work Authorization: U.S. Citizen

Languages: English, Hindi, Spanish (Limited Proficiency), Japanese (Limited Proficiency)
